

Your first visit

At the initial consultation appointment we will discuss with you the treatment required and the typical costs involved. We will then provide you with a written treatment plan and estimate of costs and we can progress with appointments at times that are convenient for you. For more complex cases you may need further appointments before a final treatment plan can be agreed upon.

It would be helpful if you could bring a list of any medication you are currently taking and keep us informed of any changes to these during your treatment with us. If you require the services of an interpreter, we can contact Fife Community Interpreting Services and arrangements can be made for an interpreter to attend your appointment or we can facilitate an online web service (Microsoft Teams). If you are attending an appointment and plan to bring children with you, please note that legislation states that our staff are not able to supervise them during your time in the treatment room. Also, dogs get very hot when left in cars in the warmer weather, so perhaps it would be best to leave them at home.

Please visit the Blackhills Clinic website for further information www.blackhillsclinic.com

Trudie Imrie

Clinic Manageress

Trudie is the Blackhills Clinic Manageress and has been co-ordinating dental treatment for over ten years. Trudie and her experienced team of nurses and clerical staff are always willing to give advice and further information to patients and referring dentists.

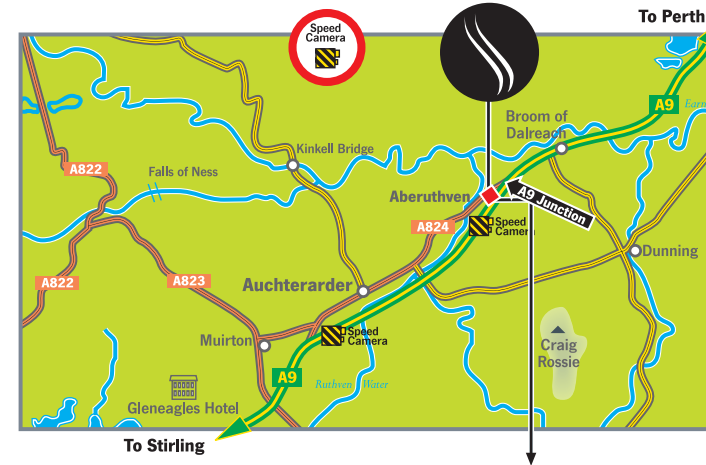

Location

We are closer than you think - less than 1 hour from Edinburgh & Glasgow; 30 mins from Dundee.

South of Perth, on the main A9. Free on-site parking.

Leaving the A9 at the Aberuthven junction, the clinic is approximately 100 metres along the road on the left. Look for 'Hadden Construction' – we are just behind with plenty of parking. Watch out for the two speed cameras on the way from Stirling!

Blackhills Clinic:

- is registered with Healthcare Improvement Scotland – Reg No. 00238
- has a validated Complaints policy – contact our Clinic Manager for a copy or view on our website <https://www.blackhillsclinic.com/resource.html>
- has an out-of-hours emergency telephone number for patients receiving active treatment at Blackhills Clinic – 07958102537
- has disabled parking space, access ramp and facilities. All clinic rooms on one level.

Opening hours: **Monday to Friday 08:30 - 17:00**

Maidenplain Place, Aberuthven,
Perthshire, PH3 1EL

Blackhills Specialist Dental Clinic

“Advanced Dentistry
by Specialists”

www.blackhillsclinic.com

Blackhills Specialist Dental Clinic

Blackhills Clinic is a purpose-built dental clinic providing all private Specialist dental treatment. The clinic is situated just west of Perth, on the main A9 dual carriageway. Our aim is to deliver high quality, advanced dentistry by a team of registered Specialists. The "Specialist" title can only be used if a dentist has been recognised by the General Dental Council, as having a higher level of training and expertise in that particular field of dentistry.

Blackhills Clinic is a state-of-the-art facility for patients referred to us by their own dentists, as well as those who contact us directly. All treatments are based on highly regarded good clinical practice, carried out in modern surgeries with the latest digital and computer technology, and where a central sterilisation facility ensures the highest standards of care. For the duration of any course of treatment, patients will be able to contact one of the Specialists for advice.

Specialist Treatments Available

We offer a range of advanced dental treatment all provided by our General Dental Council registered Specialists. This includes dental implants, using the best systems in the world and with an exceptionally high success rate, minor oral surgery, prosthodontics (crowns, bridges and dentures), endodontics (root fillings, and periodontics (gum treatment). Patients are often seen by more than one specialist, each having their own area of expertise. Working as a team in this way ensures we are able to provide the highest standards of treatment.

Blackhills
CLINIC

Paul Stone

Specialist Oral Surgeon and Clinical Director

BDS (Hons) Lpool, FDS RCSEd, FDS RCPS (Glasg)
(GDC Registration No. 60534)

Paul has over 25 years of experience in implant dentistry and lectures internationally. He has been Chairman of the Implant Advisory Board of the Royal College of Surgeons of Edinburgh, President of the European Association of Osseointegration (EAO) and President of the UK Association for Dental Implantology (ADI). He also worked as a Consultant at Edinburgh Dental Institute and is a Fellow of the International Team for Implantology (ITI).
